52 Plus 2

The Search for a Few Good Men and Women

Fifty-two plus two, that's the number of republican men and women in the Senate, plus the President and Vice President. These men and women hold the fate of millions of Americans in their hands. The sad part about the mighty 52 plus 2, is that there are more than a few of them who don't even care about the losses to their constituents. It has been my understanding that members of congress were elected to make our lives better, somehow, they forgot this. It amazes me to see them line up and pretend that they work for you and me. It's not complicated at

all. They just need to do their job. It seems to be all about the money, not for you and not for me, but for themselves and their friends. For as long as I can remember, it has been reported that the budget cannot sustain the current spending levels, but somehow through these years, the budgets have come and gone without a major malfunction to the country because of government spending. These men and women create the problems we are having so why is it that they can't fix the problems. The American people are no more than players in their game of power. These fifty-two plus 2 men and

women want to remain in power and therefore they will not make a decision of any kind. Keep the American people suffering and blame it on the system being broken. Well, who broke the system? I know the American people are smarter than that. We can see it for what it is. The republican congress has gotten

exactly what they asked for. They asked for all three branches of government. Now that they have it. What are they going to do to fix it? Hurry up I have family members about to die because of your inaction.
