

Local Politics Matter

A Day Of Hope

East Baltimore

Local Politics Matter was proud to participate in the annual East Baltimore Day of Hope on Saturday August 19, 2017. Our primary objective in attending the event was to increase voter registration and participation by registering voters and increasing awareness of the importance of voting.

Although, not many voter registrations were completed, LPM was pleased to learn that many of the event participants were already registered voters.

In addition to voter registration, our community liaison team shared articles from our website that are pertinent to the Baltimore community and introduced themselves to Lt. Col Russell the Chief of the Community Collaboration Division for the police department, Marilyn Mosby the State's Attorney for Baltimore Maryland and many residents of East Baltimore.

In keeping with one of our core missions to increase voter participation, LPM will be participating in as many community events as possible prior to the 2018 elections.

Join us on Friday September 1st at the Public School #85 dedication in East Baltimore. Remember to vote at every opportunity and look for LPM at upcoming events throughout Baltimore.
